Rain Date June 10th

Principal's Message

I would like to take this opportunity to congratulate all of our seniors who have reached their goal of a high school diploma. This is a very special time and a great accomplishment. You have taken a very good step in the right direction. I hope that the self discipline and hard work that helped you reach this goal also helps you where ever the future takes you.

I also want to congratulate the families and support systems of these graduates. They would not have been able to make it without your support. It will be important to continue to continue to support them as they take these next steps. They might even need a push in the right direction down the road. These graduates are very lucky to have you, even if they do not see it that way now, they will one day think back and realize all you have done for them.

For now take time to enjoy this celebration, as this will also fly by. I hope that every family celebrating graduates this year has a very fun and safe time. I also wish all the graduates and their families all the luck in the world with their future.

Sincerely,

Javier Perez
